DATO' DR THOMAS CHEE →

*Chairman Emeritus
ARTDO International*

This year, we converge under the compelling theme: **Sustaining High-Performance Organizations with Talent Acceleration, Coaching Culture, and Digital Leadership**. Today, as organizations worldwide navigate unprecedented challenges, key gaps in learning and growth have emerged. The demand for accelerated talent development, coupled with the need to build resilient coaching cultures, have never been more urgent. While digital leadership offers immense potential, many organizations grapple with how to align technology, talent and culture effectively.

The current concerns for Learning and Development are manifold: fostering engagement in hybrid work models, building agility amidst economic uncertainties, and addressing talent retention in an increasingly competitive landscape. Coupled with these challenges is the pressing need to redefine leadership in the digital age. I urge you to embrace this opportunity for connection, collaboration and networking at this Conference.

Welcome once again and let us make this conference a milestone of inspiration and impact. Thank you!
